

NAPA is first to the aftermarket – again! With more coverage!

And you will be too, when you install Hydraulic Tensioners/Dampers. Available as part of the NBH Timing Component Kit line.

We've expanded the coverage of the NAPA Hydraulic Timing Tensioner/Damper to include over 20 million vehicles in operation. Some of these parts are being offered in the aftermarket for the first time! Many of these original parts are leaking due to aging or worn seals. Avoid comebacks when replacing a timing belt—be sure to inspect the tensioner/damper for signs of leakage or wear, and replace it with a new, OE-identical NAPA Hydraulic Timing Tensioner/Damper.

- Every part is OEM identical!
- Line expansion includes over 20 million vehicles!
